

۱- هدف:

هدف از تهیه این رویه ایجاد روش یکسان و قابل کنترلی برای تشخیص میزان توانایی فنی و مالی متقاضی سرمایه گذاری احداث نیروگاه می باشد.

۲- دامنه کاربرد:

این رویه در واحد سازمانی طرحهای نیروگاه BOT کاربرد دارد.

۳- تعاریف:

به شرح بند ۱-۲ (تعاریف) اشاره شده در پرسشنامه پیش ارزیابی

۴- مسئولیتها:

۴-۱- مسئولیت اجرای این رویه بعهده دفتر جذب و توسعه سرمایه گذاری طرحهای نیروگاه BOT می باشد.

۴-۲- در صورتیکه بررسی و امتیاز دهی یکی از مراحل برگزاری مناقصه باشد، مسئولیت این کار بعهده کمیته فنی بازرگانی مناقصه و همچنین دفتر جذب و توسعه سرمایه گذاری طرحهای نیروگاه BOT می باشد.

۵- روش اجرا:

۵-۱- درج در سایت اطلاع رسانی توانیر توسط دفتر جذب و توسعه سرمایه گذاری و یا اعلام عمومی در روزنامه های کثیر الانتشار داخلی و خارجی

۵-۲- دعوت مستقیم برای اخذ فرم پیش ارزیابی توسط دفتر جذب و توسعه سرمایه گذاری و ارائه فرم به متقاضیانی که راسا به این دفتر مراجعه می نمایند.

۵-۳- تکمیل فرم پیش ارزیابی توسط سرمایه گذاران (در مدت زمان مشخص و محدودی که دفتر جذب و توسعه سرمایه گذاری تعیین می نماید یا در اسناد مناقصه بیان شده است).

یادآوری: این فرمها در مجموعه ای که به صورت متن انگلیسی به پیوست دستورالعمل می باشد ارائه شده است.

۵-۴- ارزیابی و امتیاز دهی به سوابق ارائه شده از سوی سرمایه گذاران توسط دفتر جذب و توسعه سرمایه گذاری

۵-۵- تهیه لیست کوتاه رتبه بندی سرمایه گذاران (Short List) بر اساس امتیازات بدست آمده از ارزیابی سرمایه گذاران

۶- سوابق :

ردیف	عنوان سابقه	نوع نگهداری	محل نگهداری	مدت نگهداری	نحوه دسترسی
۱	فرمهای تکمیل شده پرسشنامه پیش ارزیابی	زونکن	دفتر جذب و توسعه سرمایه گذاری طرحهای نیروگاه BOT	۵ سال پس از تحویل فرمها/ مدارک/ کاتالوگها	با هماهنگی مدیر دفتر جذب و توسعه سرمایه گذاری

I. INSTRUCTIONS FOR PREQUALIFICATION**PREAMBLE**

This invitation for Prequalification to bid is issued by Iran Power Development Company (IPDC), on behalf of Iran Power Generation , Transmission and Distribution Management Company (Tavanir), for selecting eligible experienced companies who will be Prequalified and admitted to a limited invitation to bid for [.....]Power Project.

[.....]Power Project involves the implementation of a power generation plant with a capacity of [....]MW \pm ...% at design condition (the "Power Station"), on a Build-Operate-Transfer (BOT) basis.

The Power Station is to be located on a land, in the [.....] of Iran. This site is located nearby [.....] City, [.....] Province, which will be made available to the successful Bidder, by Tavanir, free of charge.

Tavanir will also supply, at its own cost, natural gas as main fuel and distillate fuel as backup for conversion to energy in the Power Station.

All parties interested in bidding for the Project are to be prequalified for the subsequent Bid thereof.

The Bid procedure consists of two stages:

۱. Prequalification of Applicants;
۲. Submission of Bid by the Qualified Applicants.

For this purpose:

- Applicants shall prequalify according to these Instructions for Prequalification.
- Prequalified Applicants shall be invited to bid pursuant to the requirements of Bidding Documents.
- To be considered for award, a Bidder shall submit a proposal conforming to the requirements of the Bidding Documents.
- The Project shall be awarded to a Bidder who is fully capable of undertaking the authorisation and whose bid in terms of price, commercial conditions, technical terms, local participation and other specified criteria is determined to be the most advantageous.

The Project includes the design, engineering, financing, supply, transport to the Site, construction, installation, testing, commissioning, operation, maintenance, repair, management, and selling to Tavanir, Capacity and Energy generated by the Power Station subject to an Availability of [...] at base load condition during a ۲۰ - year Commercial Operation Period, in accordance with the terms and conditions set out in the Energy Conversion Agreement and transfer the Power Station to Tavanir at the end of the said Period.

The successful Bidder will enter into an Energy Conversion Agreement (the "ECA") with Tavanir under which Tavanir undertakes to purchase Capacity, and Energy generated by the Power Station and delivered to Tavanir throughout the Commercial Operation Period, unless terminated earlier or extended as provided in the ECA.

The Scheduled Commercial Operation Date for the Power Station will be years from the Commencement Date of the ECA.

این سند نامعتبر و نسخه الکترونیکی معتبر می باشد

۱. FOREWORD

۱,۱ General

This document defines the procedure to be followed in the bidding designed to lead to an Energy Conversion Agreement (ECA) for [.....] Power Station (Power Station) as specified in Article ۲,۱ of this document.

The Bidding is open to all Prospective Bidders who will have been proved, by their record and experience, to have satisfactorily fulfilled all the stated requirements provided for in Article ۴,۲ of this document.

۱,۲ Definitions

For convenience, the following words and expressions used in this document shall have the meaning hereby assigned to them except where the context otherwise requires

Applicant: means a company, either alone or in Joint Venture, that applies for Prequalification and holds the requirements described in Article ۴,۲;

Bidder: means the Applicant qualified by IPDC to submit the Bid;

IPDC: means Iran Power Development Company, affiliated to the Ministry of Energy of the Islamic Republic of Iran, acting for and on behalf of Tavanir;

Joint Venture: means the joint operation of two or more companies;

Project: means the works defined in Article ۲,۱ of this document;

Leader: means a member of the Joint Venture who is authorized to represent it;

Project Company: a special purpose company, which shall be established by the successful Bidder, for implementing the ECA.

۱,۳ Time Schedule

The time schedule for Prequalification and Bidding is enclosed. The said time schedule is provisional and IPDC reserves the right to make any changes to it as may be necessary at any time.

۱,۴ Bidding Documents

In addition to the Letter of Invitation to Bid, the Bidding Documents are made up of the following sections:

Section A - Instructions to Bidders

Section B - Bid Form

Section C – Energy Conversion Agreement including its Schedules

Section A contains general instructions regarding the Bid process. Section B describes the required format

for bids and the information required to be submitted by the Bidders. Section C contains the Energy Conversion Agreement text setting out the principal terms and describing the proposed tariff structure, as well as all information relating to the technical parameters of the Project.

Qualified Applicants will be entitled to obtain the Bidding Documents upon payment of the amount, which will be specified in the Letter of Invitation to Bid.

۱.۵ Membership

The membership of a Joint Venture at time of bid submittal shall be the same as that presented for Prequalification.

۲ SCOPE OF ENERGY CONVERSION AGREEMENT

Scope of Works

The scope of works to be undertaken by the successful Bidder is "the development, financing, design, engineering, procurement, manufacture, supply, transportation to Site, construction, installation, completion, testing, commissioning, insurance, management, operation and maintenance, and transfer of [.....]Power Project (the "Project"), and the sale by the Project Company and the purchase by Tavanir of the Capacity and Energy of the Power Station in accordance with and pursuant to the terms of the (ECA). The Power Station may comprise any reasonable combination of gas and steam cycles.

۳ PROSPECT OF PREQUALIFICATION

۳.۱ General

Tavanir requires reliable power supply for the entire period of the ECA, and places significant value on the economic, technical and environmental feasibility of the proposed projects. Thus, while the bid price will be an important factor in the evaluation of proposals, careful consideration will also be given to non-price factors, such as Bidder's experience, clearance and permit plan, technical expertise, viability and relative competitiveness of the financing plan, plant design, operations and maintenance plan, and Project scheduling plan.

In this respect, the Applicants shall demonstrate sufficient technical, financial and organizational strength to perform their obligations under the ECA for its [۲۰+Construction Period]years of duration.

۳.۲ Evaluation

IPDC will evaluate, compare and rank the prospective Applicants based on the scores received by each of them. The maximum score is ۱۰۰ points. For purposes of this ranking process, the factors are subdivided into four groups:

پرسشنامه پیش ارزیابی سرمایه گذاران

- | | |
|--|-----------|
| (a) Applicants experience and capability | ۵۰ points |
| (b) Viability of Project development plans | ۲۰ points |
| (c) Viability of Project execution and operation plans | ۲۵ points |
| (d) Site control plans | ۵ points |

Based on the scoring and ranking of each Applicant, IPDC will notify the qualified Applicants by facsimile, confirmed in writing that they have been selected to bid. Within ۱۰ calendar days after the receipt of this letter from IPDC, these Applicants must notify IPDC if they intend to bid.

۳,۳ Specific Considerations

IPDC will grant a margin of preference to goods manufactured in the Islamic Republic of Iran for the purpose of bid comparison. Similar margin of preference will be granted for services performed by Iranian companies.

The terms of financing agreements, financing parties and financing model are of great importance to Tavanir. Each Applicant must provide a financing plan and indicate its present status. If presently known, the Applicant should identify equity partners, potential sources of debt financing, and the capital structure (debt/equity ratio) of the Project. Applicants must provide evidence of financial capability and commitment of partners in the development and operational phases of the proposed project.

A scheduling plan for the development of the Project consistent with the clearance and permit plan, Project financing plan would assure IPDC that the Project could meet the target commercial operation date. Tavanir requires that the Project must have a Commercial Operation Date, which shall not be later than the end of the year

Tavanir requires that the Project be operated and maintained in a manner consistent with prudent utility practices. Tavanir and the successful Bidder will jointly develop and implement suitable operating and maintenance policies and procedures to co-ordinate the operation of the Project with the Iranian national grid. The energy shall be delivered to Tavanir in accordance with Tavanir load control centre dispatch rules and instructions.

Establishment of a maintenance reserve fund or availability of alternative financial instruments to meet unforeseen or extraordinary maintenance expenses for the Project, including any replacement of major equipment, would be appropriate. Maintenance of a spare part inventory sufficient to support the normal expected maintenance requirement and consistent with manufacturer's recommendations would provide assurance regarding Project operation and maintenance procedures.

Operation and maintenance planning should carefully consider the technical information provided above. In addition, Applicants are advised that maintenance outages should not be planned for peak seasons. Tavanir is concerned about the timing and duration of annual scheduled maintenance requirements, as well as the timing and duration of major overhauls, for the period of the ECA.

Applicants shall submit every possible document to demonstrate their technical, financial and organizational strength to develop a project similar to the Project in question. No specific form is designed for the Applicants various plans such as Project development plans, Project execution and operation plans, Site control plans etc. Applicants are requested to provide the above plans in their own normal format .

۴ PREQUALIFICATION PROCEDURE

۴,۱ Submission of Prequalification Documents

- a. Prequalification Documents shall be submitted in English in one original and three (۳) copies. Each set of documents shall consist of all documents required in this “Prequalification Questionnaire”, including all addenda, if any, and supporting documents required in Article ۴,۴.

The original documents shall be marked “Original”, and the copies shall be marked “Copy”.

In case of discrepancy between the copies and the original, the original shall prevail;

- b. The Prequalification Documents shall be completed in ink, and no changes shall be made to the wording thereof; if there are any mistakes in the filling in of the documents, corrections shall be made only by means of write-overs, initialed by the person signing the prequalification Documents;
- c. Prequalification Documents must be accompanied by a Power of Attorney and such other documents as may be necessary to show evidence that the person (or persons) signing and initialing the Prequalification Documents is (are) duly authorized to represent fully and completely the Applicant for the purpose of this Prequalification.
In case of a Joint Venture, the Power of Attorney shall be given to one or several persons representing all the members of the Joint Venture.
Such documentation and Power of Attorney shall be authenticated by a Notary Public.
- d. Prequalification Documents shall be placed in separate sealed envelopes clearly marked in capital letters in the lower left-hand corner as follows:

<p>PREQUALIFICATION DOCUMENTS</p> <p>[.....]Power Station</p>
--

The Prequalification Documents shall be addressed and delivered to:

Mr. M. Sepehr, Executive Manager for BOT Projects

Iran Power Development Company

No. ۲۸, Shahid Shahamati Alley

Vali-e- Asr Avenue

Tehran, Islamic Republic of Iran

on or before [Date].

Applicants residing outside the Islamic Republic of Iran may submit their Prequalification Documents by registered mail, which must reach IPDC on or before the date specified above.

۴, ۲ Applicant's Qualification

To be admitted to the Prequalification, the following requirements must be fulfilled:

- a. to be i) a company duly organized, registered and existing; or ii) to be a "Joint Venture" associating two or more companies, whose members are jointly and severally bound to carry out the Project;
- b. to have been in business for more than five (۵) years;
- c. to have developed, installed and successfully commissioned projects of type and size similar to that described in clause ۲, ۱);
- d. to have qualified responsible key personnel of management level who are competent, experienced and suitable for carrying out the Project; and
- e. to have good banking references, evidence.

In case of a "Joint Venture", one of the members shall be selected as Leader for representing the Joint Venture. The above mentioned requirements under points (a) to (e) inclusive shall be applied to the Leader. The provisions under points (a)i), (b), and (e) shall be applied to each member of the Joint Venture.

۴, ۳ Filling in the Prequalification Specimens and Forms

- a. General In the preparation of the Prequalification Specimens and Forms the Applicants shall:
 - i) provide all required information;
 - ii) state "NOT APPLICABLE" where necessary;
 - iii) insert supplementary pages for the Forms, if necessary;
 - iv) number in sequence each sheet of the Forms.
 - v) give all financial data in US Dollars (US\$) unless otherwise requested.
 - vi) If a Joint Venture is proposed, each and every company forming the joint operation are to answer all questions of Forms No. ۱, ۲, ۵, ۶ and ۷.
 - vii) Signature of the Representative and date are required where spaces on purpose are provided.\
- b. Prequalification Letter Applicants, shall fill in the Prequalification Letter indicating whether it is a "Company" or "Joint Venture". In case of a company, the partners of the company shall be indicated. In case of a Joint Venture, the Leader and all other members of the same shall be indicated.

In the Prequalification Letter the full business address of the Applicant shall also be indicated.

What in the Letter Specimen is not relevant, shall be deleted.

- c. Form No. ۱ Applicants shall fill in all the blanks concerning their structure and organization.

In point ۰ of the form shall be stated the field of activities, which in the opinion of the Applicants are most related to the Project.

In point ۶ of the form shall be stated the branch of specialty such as electrical engineering contractor, mechanical engineering contractor, etc.

- d. Form No. ۲ Applicants shall answer all questions concerning the Financial Resources available to them.

The authorized capital in point ۱ of the form means the nominal capital of the Project Company.

Applicants can attach other financial data which they consider useful for the Qualification.

- e. Form No. ۳ Applicants shall fill in the form only if they intend to enter into a Joint Venture. If no Joint Venture is foreseen, write "NOT APPLICABLE". The data shall correspond to those given in the supporting document specified in Article ۴, ۴ (d).

- f. Form No. ۴ Applicants shall provide any information they may consider useful for their Qualification.

- g. Form No. ۰ Applicants shall give information about works similar to the Project that they have successfully done.
Applicants shall fill in a separate form for each project.

- h. Form No. ۶ Applicants shall give information about the works carried out in the Islamic Republic of Iran/or in the neighbouring countries.

- i. Form No. ۷ Applicants shall give the names and addresses of employers of the projects listed in the Forms No. ۴ and No. ۶ who can give technical and economical references about the works executed.
Documents issued by the aforementioned employers such as completion and performance certificates and similar certificates shall be attached, if available.

- j. Form No. ۸ Applicants shall indicate the number of sheets of each Prequalification Form, which they have filled in.

- k. Form No. ۹ Applicants shall indicate in this form all the annexes submitted giving them a progressive number which shall Correspond to the number marked on the relevant documents.

۴, ۴ Supporting Documents

In order to be in compliance with all the requirements stated in clause ۴, ۲, the Applicants shall annex to the Prequalification the following documents:

- a. A document stating the scope, the paid-up capital, the duration and the date of incorporation of the Project Company, and the name of all the directors of the board.

- b. A copy of the latest balance sheet of the Applicant;
- c. Banking references given by an internationally known bank.
- d. A document establishing the formation of the Joint Venture, if the Applicant is a Joint Venture, (or the document of intent to form the Joint Venture).

The document shall define precisely the general conditions under which it will function, its duration, the Leader authorized to represent it and who will take the full responsibility of the Project, the shares of participation of each member thereof; such document shall contain particularly the obligation of all its members to be jointly and severally liable for the obligations arising out of the ECA in case of award, and that such joint and several liability is not impaired by the special position of the Leader.

- e. A statement by the Leader of the Joint Venture, if the Applicant is a Joint Venture, declaring that it, in addition to the liabilities mentioned in point (d) above, it is entirely responsible for the Prequalification. The Leader's responsibility can be extended for the bid and the execution of the ECA if the Leader deems such extension is convenient to him.
- f. Any technical and/or financial documentation considered suitable by the Applicant to be presented for the Prequalification.

If a Joint Venture is proposed, each company forming the Joint operation has to submit the documents of points (a), (b), and (c).

۴, ۵ **Interpretation of Prequalification Documents**

If any Applicant is uncertain as to the true meaning of any part of the Prequalification Questionnaire, it may request IPDC for clarifications not later than ten (۱۰) days before the date set forth for the submission of the Prequalification Documents.

Any interpretation will be made by official circular letters issued by IPDC to all Applicants. Applicants shall acknowledge receipt of each circular letter.

۴, ۶ **Addenda**

Addenda to the Prequalification Questionnaire may be issued by IPDC to clarify provisions herein or to notify modifications. Each Addendum to be issued will be distributed to all Applicants who shall acknowledge receipt of each Addendum.

۵ **QUALIFICATION OF APPLICANTS**

۵, ۱ **Examination of Documents**

IPDC shall examine the Prequalification Documents, verify their regularity, evaluate the Qualifications required hereinabove and prepare a list of the Applicants, which fulfil the requirements.

۵, ۲ **Notice of Results**

Within the time specified in Article ۱, ۳, IPDC will notify each Applicant in writing whether it is qualified or not.

۵,۳ IPDC's Rights

IPDC has the full right to disqualify any Applicant, who at its discretion does not meet the requirements specified in this Questionnaire or has not submitted the required ocumentation.

IPDC will not accept any claim regarding procedure or the results of the Prequalification

۶ GENERAL INFORMATION

۶,۱ Disclaimer

All above information are given for the guidance of Applicants only.

IPDC accepts no responsibility for any use the Applicants may make of it or of any other information the Applicants may derive, or conclusions they may draw from any data urnished by the IPDC.

۶,۲ Confidentiality

All documents and information received by IPDC from the Applicants will be deemed confidential. The documents will not be returned.

۶,۳ Prequalification Expenses

All expenses relating to the participation in this Prequalification will be at Applicant's own charge.

Prequalification Letter Specimen

To Iran Power Development Company (IPDC)

Gentlemen:

In accordance with the Prequalification Questionnaire related to [.....]Power Station, the undersigned Representative:

(Full Name and Position)

is legally authorized to act in name and on the account of the Applicant:

Company _____,

(Name of Corporation)

having its principal place of business at: _____,

(Legal Address of the Applicant)

composed of the following partners:

a. _____,

b. _____,

c. _____,

- or -

Joint Venture: _____

composed of:

a. Leader:

and the following other members:

b. _____

c. _____

d. _____

e. _____

f. _____

g. _____

by means of certified Power of Attorney: _____

(Type, Place, Number and Date of Power of Attorney)

attached to these documents, hereby applies for Prequalification for bidding for [.....] [...] MW \pm ...% Power Station, which is to be developed on Build-Operate-Transfer (BOT) basis.

By this letter the undersigned who acts in name and on account of the Applicant declares:

- a. to guarantee the truthfulness and exactness of all statements and answers made in Prequalification Forms and in the attached documents;
- b. to authorize IPDC or his representative to effect any investigation to prove the truthfulness of all statements and documents submitted and to obtain clarification and information on the technical and economic conditions of the Applicant;
- c. to accept unconditionally the procedure adopted for this Prequalification, the documents of the same and to renounce, consequently to any claim.
- d. that, by virtue of the Power of Attorney, he has been granted with, he has the widest authority to execute agreements and to effect all the necessary formalities for the Prequalification;

e. that the address that in which he fixes his legal domicile, to the effects of this Prequalification and Bid, to which IPDC may direct his correspondence is as follows:

(Mail Address, Tel., Fax and E-mail)

f. that he has received the following Addenda and Circular Letters:

(i) _____

(Addendum No. and Date)

(ii) _____

(Addendum No. and Date)
